## Part I

## Mandatory information on shareholder structure, organisation and corporate governance

#### Introduction

This Corporate Governance report was prepared in accordance with the Regulation of CMVM (the Portuguese Securities Market Commission) 4/2013 from July 12.

The report follows the structure of Annex I of the previously mentioned CMVM (the Portuguese Securities Market Commission) Regulation.

### A. Ownership Structure

#### I. Capital structure

1.

The capital structure (share capital, number of shares, distribution of capital by shareholders, etc.), including an indication of shares that are not admitted to trading, different classes of shares, rights and duties of same and the capital percentage that each class represents (Article 245-A/1/a).

The share capital, after the conversion on September 3, 2019, of 300,980,441 preferred shares with no voting right in ordinary shares, by applying the 1: 1.25 exchange ratio approved at the General Meeting of November 15, 2018, is represented by 526,225,508 ordinary, nominative and no face value shares.

All shares are listed in the Euronext Stock Exchange and give

their respective owners the same right to participate on the results of the company. All shares qualify for the same voting rights – 1 vote per share, without prejudice of the voting right limitations stated on Article 13-A of the Articles of association state "The votes cast by a shareholder, in his own name or as the representative of another, exceeding one third of the total votes corresponding to the share capital will not be considered".

The Company has not established any mechanism that has the effect of undermining the free transferability of shares, free appraisal by the shareholders of the performance of members of the governing body or cause mismatch between the right to receive dividends or to subscribe for new securities and the right to vote for each ordinary share.

On point 7 it is described the information about qualified stakes.

On the Extraordinary General Meeting of November 15, 2018, the Article 13-A was amended in order to adapt it to the conversion of preferred shares into ordinary shares, as it would no longer provide a limitation on voting rights, as was only in force during the period in which the non-voting preferred shares confer voting rights. The amendment now ensures that votes issued by one shareholder, in their own name or as the representative of another, will not be considered, if exceeds one third of the total votes corresponding to the share capital. The voting rights corresponding to shares held by a shareholder that is subject to a common domain with them are also covered, being proportionally limited, when it affects several shareholders.

On October 21, 2019, following the cancellation of the registration with the Commercial Registry Office of the judicial lawsuit filed by the shareholder Nova Expressão, SGPS, SA to annul the corporate resolutions approved at the General Meetings of November 15, 2018, the 376,225,508 ordinary shares resulting from the conversion of preferred shares ceased to constitute an autonomous category and were added to the already existing original ordinary shares, trading with ISIN PTINAOAPOOO8.

2

Restrictions on the transfer of shares, such as clauses on consent for disposal, or limits on the ownership of shares (Article 245-A/1/b).

There are no restrictions to the free transfer of ownership of the shares other than the ones arising from the applicable law (e.g. the obligation to launch a public tender offering when the shareholder ownership exceeds 1/3 or 1/2 of the total voting rights).

3.

Number of own shares, the percentage of share capital that it represents and corresponding percentage of voting rights that corresponded to own shares (Article 245-A/1/a).

The company does not hold any own share.

4.

Important agreements to which the company is a party and that come into effect, amend or terminated in cases such as a change in the control of the company after a takeover bid, and the respective effects, except where due to their nature, the disclosure thereof would be seriously detrimental to the company; this exception does not apply where the company is specifically required to disclose said information pursuant to other legal requirements (Article 245-A/1/j).

The Company is not a party to any agreement that will come into force, be amended or terminate in the event of a mere change in the Company's controlling shareholder.

It is not included, on what was previously mentioned, any dispositions medium / long term financing established with the banking system, in obedience to certain clauses typified amendment or termination of contracts provisions, whenever a new shareholder structure may not offer the same guarantees the solvency of the company.

As part of the transaction to acquire Papyrus Deutschland, a financing contract was signed with OptiGroup for a period of up to 12 months from the closing of the transaction on 11 July, 2019, which establishes its immediate payment in a situation where there is a change in a dominant position in accordance with the provisions of Articles 20 and 21 of the CVM (the Portuguese Securities Code)

5.

A system that is subject to the renewal or withdrawal of countermeasures, particularly those that provide for a restriction on the number of votes capable of being held or exercised by only one shareholder individually or together with other shareholders.

Pursuant to the provisions of the statutory amendment of November 15, 2018, referred to in 1, the Board of Directors shall submit, every five years, a proposal for a resolution to the General Meeting to amend or maintain the limiting provision of voting rights, without aggravated quorum requirements for the quorum supplemented by law and in which all votes cast shall be counted, without limiting the voting rights.

6.

Shareholders' agreements that the company is aware of and that may result in restrictions on the transfer of securities or voting rights (Article 245-A/1/g).

The company is not aware of any agreements signed by its shareholders.

### II. Shareholdings and Bonds held

7.

Details of the natural or legal persons who, directly or indirectly, are holders of qualifying holdings (Article 245-A/1/c) & /d) and Article 16) with details of the percentage of capital and votes attributed and the source and causes of the attribution.

The shareholders with qualifying holdings on 31 December, 2019, were:

At the Ordinary General Meeting of November 15, 2018, at 11:30 am, the issuance of 15,000 convertible bonds, with the nominal value of € 1,000 each, amounting to € 15,000,000, was approved to be subscribed by Papyrus AB and / or Papyrus GmbH for the payment of part of the price related with the acquisition of Papyrus Deutschland GmbH & Co. KG and Papyrus Deutschland Verwaltungs GmbH. It was also approved a suppression of the shareholders subscription rights on the mentioned convertible bonds, as well as a capital increase from the current € 180,135,111.43 to € 195,135,111.43 through the conversion of the aforementioned convertible bonds.

10.

Information on any significant business relationships between the holders of qualifying holdings and the company.

No business or transactions, out of normal market conditions, were entered into by the Company and owners of qualifying holdings or entity relationships with the former, as envisaged in Article 20 of the CVM (the Portuguese Securities Code).

The transactions with related parties are described on Note 33 of the consolidated financial statements.

### **B.** Corporate Bodies and Committees

#### I. General Meeting

a) Composition of the Presiding Board of the General Meeting (throughout the year in reference).

11.

Details and position of the members of the Presiding Board of the General Meeting and respective term of office (beginning and end).

The Board of the General Meeting is composed by the following members:

Chairman – Nuno Galvão Teles Secretary – Ricardo Andrade Amaro

The current composition of the Board of the General Meeting of Shareholders, for the period 2019-2021, was established jointly with the election of the Governing Bodies in the General Meeting of May 23, 2019.

Besides the support of the secretary, the Chairman of the Board of the General Meeting has also the support of the company's secretary, as well as its administrative services, that are deemed adequate and sufficient for the right performance of his duties.

#### b) Exercising the right to vote

### **12**.

Any restrictions on the right to vote, such as restrictions on voting rights subject to holding a number or percentage of shares, deadlines for exercising voting rights, or systems whereby the financial rights attaching to securities are separated from the holding of securities (Article 245-A/1/f).

The Company's Articles of association does not stipulate any minimum number of shares to exercise the voting rights.

Paragraph 1 of Article 23-C CVM (the Portuguese Exchange Code) stipulates, as written in Decree-Law 49/2010 of May 19, that "Shareholders may participate and exercise their voting rights at meetings of the General Meeting provided

they hold shares, at 0 hours (GMT) of the fifth business day prior to the date of the meeting (registration date), that entitle them, according to the law and the company's Articles of associations, to at least one vote". According to paragraph 5 of Article 13 of the company's Articles of association, for each share there is one vote.

Statutory regulations on the exercise of voting by post are set out in paragraph 2 of Article 13 of the company's Articles of association, which stipulate that:

"Shareholders may exercise their voting rights by post. To do so, they should address a registered letter with recorded delivery to the Chairman of the Board of the General Meeting at least three working days prior to the date of the session of the General Meeting in question."

The ballot paper and the mandatory letter are available on the company's website and interested shareholders may send such documentation via a registered letter or email, in order to exercise their right to vote.

The company's Articles of association do not contemplate any rules relatively to systems to detach equity rights.

The company considers that it is in the best interest of its shareholders not to implement a telematics voting system, as there was no request or intention of participation on a General Meeting from a shareholder or potential investors to use such a systems, i) on the past General Meetings there was a low number of participants and ii) the implementation of a system allowing telematics voting in a safe way, would represent a significant cost.

## 13.

Details of the maximum percentage of voting rights that may be exercised by a single shareholder or by shareholders that are in any relationship as set out in Article 20/1.

At the General Meeting held on November 15, 2018, it was reviewed the disposition of the company contract that foresees the limitation of voting rights expressed by one shareholder. This provision, currently, provides that the votes cast by one shareholder, in his own name or in representation of another, which exceed one third of the total votes

corresponding to the share capital, will not be considered. The voting rights corresponding to shares held by a shareholder with a common domain, being proportionally limited, when it affects several shareholders.

It is established that the Board of Directors has to submit every five years for resolution by the General Meeting, a proposal to change or maintain this statutory provision, without aggravated quorum requirements relative to complementarily quorum established by law. On this deliberation all votes are counted, not being applied the limitation.

14.

Details of shareholders' resolutions that, imposed by the Articles of association, may only be taken with a qualified majority, in addition to those legally provided, and details of said majority.

The Company's Articles of association do not impose any qualified majority, in addition to those legally provided:

- The General Meeting shall decide at first call about changes in the Articles of association, mergers, asset split, dissolution and other issues that require a qualified majority, whenever a number of shareholders or their representatives, whose holdings represent at least 1/3 of share capital are in attendance; on a second call the General Meeting can decide independently of the represented share capital (Article 383, paragraphs 2 and 3 of CSC (the Portuguese Companies Code);
- The resolutions mentioned on the previous paragraph need to be approved by 2/3 of the votes, either in first or second call; if, however, on a second call, shareholders holding at least half of the share capital are present or represented, the resolutions can be approved by simple majority.

II. Management and supervision Bodies (Board of Directors, Executive Board and the General and Supervisory Board)

a) Composition (throughout the year in reference)

**15**.

Details of corporate governance model adopted.

According to the resolution of the General Meeting of May 31, 2007, the company adopted as a model of administration and supervision model considered in paragraph b) of Article 278 CSC (the Portuguese Companies Code): a Board of Directors, comprising an audit committee and statutory auditor.

At the Board of Directors meeting on May 29, 2019, the Board of Directors' regulations and the creation of an Executive Committee were approved, to which the current management of the company was delegated.

Article 4 of the Board of Directors' Regulations tipulates that the Board shall meet ordinarily once a quarter.

The Articles of association of the company, in Article 21, set that the members of the Audit Committee shall be appointed at a General Meeting and the Audit Committee shall be composed of three members, one of whom shall serve as chair. The chairman shall be responsible for convening the respective meetings and the audit committee shall ordinarily meet at least every two months.

The minutes of each meeting of the Board of Directors, the Executive Committee and the Audit Committee were drawn up and are available for consultation by the Governing Bodies at the company's headquarters, and the Chairman of each Body is available to provide any clarification.

The minutes of the meetings of the Executive Committee are regularly shown to the Audit Committee, whose minutes of the meetings are regularly presented to all members of the Board of Directors.

### 16.

Articles of association rules on the procedural requirements governing the appointment and replacement of members of the Board of Directors, the Executive Board and the General and Supervisory Board, where applicable. (Article 245-A/1/h).

In conformity with provision of paragraph 1 of Article 18 of the company's Articles of association, the Board of Directors should be composed of 5 to 12 members, elected on the General Meeting.

Paragraph 2 of the same article states that "the shareholders who vote against a motion to elect the Directors have the right to appoint one Director, as long as this minority represents at least 10% of the share capital".

Paragraph 3 of the same article states that the Director designated by the minority will automatically replace the less voted person, or in case of equal votes, the person on the last position of the same list.

In conformity with the provisions of paragraph 7 of Article 18 of its Bylaws, "if the Board of Directors is composed of fewer members than the maximum set forth in item 1 of this article and it deems it necessary for the management of the company business to increase the number of Directors, it may appoint two new members prior to the next scheduled annual General Meeting. Clearly, this must not result in more than the limit of twelve members for the Board of Directors as stipulated in these Articles of association. The first annual General Meeting to be held after such appointment will either confirm or reject the advice of the Board of Directors with regard to the number of Directors. If the instruction is confirmed, the appointment of the new members will be ratified."

Paragraphs 8 and 9 of Article 19 establish that "if a Director fails to attend more than two meetings of the Board of Directors in a calendar year without good reason accepted by the latter, this will be considered definitive absence of the Director in question" and "The Board of Directors will elect replacements for any members deemed definitively absent, dismissed under the terms of the law or who resign their post. Any replacements thus made will remain in force

until the end of the term to which the members of the Board of Directors who made the selection were elected, unless the selection is not ratified by the first subsequent General Meeting. Replacements must be submitted to the General Meeting for approval, as stipulated by Article 393(4) of the Company Code."

Paragraph 5 of Article 18 of the Bylaws states that "The Board of Directors may delegate the day-to-day management of the company to one or more Directors or an Executive Committee".

The company has not introduced any type of measure that could imply a future payment or assumption of charges by the company in the event of a change of control or changes in the composition of the management body that may be liable to impair the economic interest in the transmission of shares and shareholders 'appreciation of the managers' performance.

## 17

Composition of the Board of Directors, the Executive Board and the General and Supervisory Board, where applicable, with details of the Articles of association's minimum and maximum number of members, duration of term of office, number of effective members, date when first appointed and end of the term of office of each member.

According to the Bylaws, the Board of Directors is composed by five to twelve members, elected by the General Meeting, for periods of 3 years renewable, being able to delegate the daily management of the company to an Executive Committee.

In the use of this prerogative, the Board of Directors decided on May 29, 2019 to delegate the daily management to an Executive Committee, being the composition of the two entities the following:

	BOARD OF DIRECTORS AND FUNCTION	EXECUTIVE COMMITTEE AND FUNCTION	DATE OF FIRST APPOINTMENT	END OF TERM OF OFFICE
Diogo Francisco Bastos Mendes Rezende	Chairman	Chairman	29.07.2015	31.12.2021

<sup>\*</sup> In the date of his re-election for the Board of Directors - April 15, 2016 - he had ceased its work relationship with the Group for more than 3 years - Article 18.1 paragraph a) from Regulation number 4/2013 of CVM (the Portuguese Securities Code). He was re-elected for the Board of Directors for more than 2 terms - Article 414, 5, paragraph b, of the CSC (the Portuguese Companies Code).

In assessing the independence criteria of non-executive directors, the provisions of CVM (the Portuguese Securities Code) Regulation No. 4/2013(in particular, Article 18.1) and the CSC (the Portuguese Companies Code) (Article 414, paragraph 5, letter b) were taken into account. When applying the criteria deriving from the IPCG (the Portuguese Corporate Governance Institute) Code (2018), there were no discrepancies in the assessment of the independence of managers.

The Board of Directors elected for the 2019-2021 term as its Chairman Diogo Francisco Bastos Mendes Rezende, who combines these functions with Chairman of the Executive Committee. It was elected for the functions of lead independent director, the Chairman of the Audit Committee, Victor Maurílio Silva Barros, with the mission of i) to act as an interlocutor with the Chairman of the Board of Directors, ii) to ensure that the necessary conditions and means exist, for the performance of the functions of the independent directors and iii) to coordinate the performance evaluation of the management body.

19.

Professional qualifications and other relevant curricular information of each member of the Board of Directors, the General and Supervisory Board and the Executive Board, where applicable.

<sup>\*\*</sup> In the date of his re-election for the Board of Directors - April 15, 2016 - he had ceased its activity with a qualified shareholder - Millennium BCP - for more than 3 years [Article 414 number 5 paragraph a) of the CSC (the Portuguese Companies Code) and Article 18.1 from Regulation number 4/2013 of CVM (the Portuguese Securities Code)].

## 21.

Organisational charts or flowcharts concerning the allocation of powers between the various corporate boards, committees and/or departments within the company, including information on delegating powers, particularly as regards the delegation of the company's daily management.

In accordance with the resolution of April 15, 2016 of the Board of Directors and the provisions of paragraphs 3 and 4 of Article 407 of the CSC (the Portuguese Companies Code), the following powers have been delegated to the Executive Committee, without prejudice to the Board of Directors, in conformance with the provisions of paragraph 8 of the aforementioned Act, of being entitled to pass resolutions on the matters it delegated:

- The day-to-day management of the Company;
- Monitoring and coordination of subordinate companies, including the definition of management and control guidelines;
- Setting out plans for the implementation of Company and Group policies, objectives and strategy for approval by the Board of Directors;
- Setting out general guidelines concerning the Company's internal organisation, including internal control and risk management, for approval by the Board of Directors;
- Compiling operational budgets and medium and long-term investment and development plans for approval by the Board of Directors;
- Approving contracts for the procurement of goods and services by the Company up to a limit of € 500,000 or less, per category of goods or services;
- Negotiating and contracting short-term bank finance agreements to fund the Company or subsidiary companies, under the terms and conditions that most adequately suit the interests of the Group;
- Negotiating and celebrating agreements that change, substitute or renew financing contracts, including commercial paper programs, under the terms and conditions most favourable to the interest of the company;
- Negotiating bank finance agreements with a term longer than a year and a day to fund the Company and its subsidiary companies and the issuing of corporate bonds and commercial paper programs, for which purpose binding the Company under any such transactions shall be made expressly conditional to a prior resolution of the Board of Directors to the effect;
- Provide financial support to subsidiaries, according to a structure and conditions more adequate to the best interest of the Company;
- Purchasing, selling and pledging goods or assets accounted for as fixed assets of the Company in accordance with budgets approved by the Board of Directors;
- Purchasing, selling and pledging goods or assets accounted for as fixed assets of the Company not included in budgets approved by the Board of Directors up to a value of 1.5% of the paid-up share capital per item;
- Purchasing, selling or pledging shares in other companies, provided the transactions in question are

included in the budget or in approved action plans not exceeding 2.5% of the paid-up share capital per item, above which limit prior approval from the Board of Directors shall be required;

- Deliberate on the realization of investments, divestitures and restructurings in and by the subordinate company.
- Leasing real-state property;
- Representing the Company in court and out of court, either as plaintiff or as defendant, as well as proposing and filing any legal suits, admitting guilt, withdrawing or settling out of court and committing to abide by arbitrage proceedings;
- Entering into, amending and terminating employment contracts and exercising powers of discipline over the staff:
- Opening, transacting and closing bank accounts;
- Appointing duly mandated representatives of the Company.

The Regulation of the Board of Directors approved states that it is Inapa's Board of Directors competence, non-delegable on the Executive Committees, to:

- deliberate on the matters stated on paragraphs a) and m) of Article 406 of the CSC (the Portuguese Companies Code):
- deliberate, under the terms and limits established in Article 503 of the CSC (the Portuguese Companies Code), on binding instructions to Subordinated Companies;
- deliberate on proposal from the Executive Committee, on the budget and plan of the Company and the Group;
- deliberate on acquisition or sale of majority or dominance stakes, as well as those subject to a special process of acquisition or sale under the terms of CVM (the Portuguese Securities Code);
- deliberate, on proposal from the Executive Committee, on the setting of the company's strategic objectives in terms of risk-taking and on the respective internal control and management systems.

It should also be mentioned that all directors, including those belonging to the Audit Committee, in addition to assessing and approving the budget and strategic plan for the three-year period, monitor its evolution on at least a quarterly basis.

The strategic plan for 2019-2021, where the priorities, policies and strategic objectives are set out, was discussed and approved at a meeting of the Board of Directors on December 12, 2019 in order to incorporate the very relevant integration into the Group of the new German subsidiary Papyrus Deutschland, which was only completed in July 2019, and only after that date it was possible to access relevant data for the establishment of the strategic plan.

It is important to note that in the aforementioned resolution the Board of Directors of May 29, 2019, has granted to the Chairman of the Executive Committee, according to provisions stipulated in paragraph 6 of Article 407 CSC (the Portuguese Companies Code), the following duties:

- Ensure that all relevant information is provided to the other members of the Board of Directors, regarding the operations and resolutions of the Executive Committee;
- Ensure the fulfilling of the delegated limit and the company's strategy.

The Chairman of the Executive Committee regularly sends the notices and minutes of the Executive Committee to the Chairman of the Audit Committee and they are available for consultation by other corporate members at the company's headquarters. The notices and minutes of the Board of Directors are distributed to all company directors, including those who are also part of the Audit Committee.

In conformance with the provisions of applicable legislation and with the aforementioned resolution of the Board of Directors of May 29, 2019, the following powers have specifically been granted to the Audit Committee:

- Supervising the administration of the Company;
- Ensuring due compliance with the law and the provisions of the Bylaws;
- Verifying due compliance of the accounting books, records and supporting documentation;

- Verifying, when and in the form deemed convenient, cash balances and stocks of any type of goods or assets owned by the Company or held in lieu of security or in trust or under any other entitlement;
- Verifying the accuracy of the financial statements;
- Verifying whether the accounting policies and valuation criteria adopted by the Company are conducive to appropriately represent its assets and results;
- Compiling, on an annual basis, an audit report on its audit and supervisory action and issuing an opinion on the annual report and accounts and proposals of the Board of Directors, where it states its agreement or not on the management report and financial statements and include the declaration subscribed by its members, according to Article 245, number 1, paragraph c) of CVM (the Portuguese Securities Code);
- Convening a meeting of the General Meeting of Shareholders, having a duty so to act, should its Chairman fail to do so:
- Auditing the efficacy of the risk management system, the internal control system and the internal audit system;
- Being the recipient of reports on irregularities which shareholders, employees of the Company or other parties may submit;
- Auditing the process of preparation and disclosure of financial statements:
- Validate if the Governance Report includes the elements referred on Article 245-A of CVM (the Portuguese Securities Code);

- Propose to the General Meeting of Shareholders the appointment of a Chartered Accountant and Auditor, approve annually the scope of its work and remuneration, approve any additional services and oversee its independence;
- Provide its previous opinion to any relevant business with qualified shareholders or with entities with relationship with them under the terms of Article 20 of CVM (the Portuguese Securities Code);
- Notifying the Office of the Public Prosecutor of any contraventions of the law constituting a public crime of which it may have become aware;
- Contracting for the provision of expert services in order to assist one or more of its members in the performance of their duties.

In the performance of its duties the Audit Committee meets with the external auditor and the chartered accountant - the two functions are assigned to the same entity - and is the first recipient of the reports.

Annually, the Audit Committee makes an assessment of the work performed by the auditor. In case it considers adequate the dismissal of the auditor, the Committee proposes its substitution in the General Meeting.

In case it considers adequate its dismissal, it should propose its substitution in the General Meeting.

The Audit Committee annually gives its opinion on the report and accounts submitted by management, which lists the strategic pillars and objectives of the current mandate.

The statutory auditor carries out work on the company every six months. The audit work plan is reviewed jointly with the Audit Committee. The continuation of the work, including its completion, is monitored by the Audit Committee, being this Committee the first recipient of the reports.

In the scope of its work, the statutory auditor carried out:

- Identification and evaluation of risks of material misstatement of the financial statements due to fraud or error;
- An understanding of the internal control relevant to the audit;
- An assessment of the adequacy of accounting policies;
- A conclusion about the appropriation of the use of the continuity assumption and whether there is any material

uncertainty related to events or conditions that could raise significant doubts about the ability to continue the activities;

- An assessment of the overall presentation, structure and content of the financial statements;
- A communication with those in charge of governance, including the oversight body, scope, planned audit schedule and significant audit findings including any significant weaknesses in internal control identified during the audit;
- A communication to the heads of governance, including the supervisory body, on the most important matters in auditing the financial statements for the year;
- A statement to the supervisory body on compliance with relevant ethical requirements regarding independence and any relationships that may be perceived as threats to independence.

The competences of the Audit and Executive Committees are detailed in section 21.

- III. Supervision (supervisory board, the audit committee or the general and supervisory board)
- a) Composition (throughout the year in reference)

30.

Details of the Supervisory Body (Supervisory Board, the Audit Committee or the General and Supervisory Board) representing the model adopted.

The company has adopted the model in which the Audit Committee is the Supervisory Body.

31.

Composition of the Supervisory Board, the Audit Committee, the General and Supervisory Board or the Financial Matters Committee, where applicable, with details of the Articles of association's minimum and maximum number of members, duration of term of office, number of effective members, date of first appointment, date of end of the term of office for each member and reference to the section of the report where said information is already included pursuant to paragraph 18.

Paragraph 4 of Article 22 of the company's Articles of association states "The Audit Committee of the Board of Directors will comprise of three members who fulfil the applicable legal requirements, one of whom will act as Chairperson, to be appointed by the General Meeting from among the members of the Board of Directors".

The members of the Audit Committee have been elected by the General meeting for a 3-year term.

The Audit Committee has the following Board of Director members:

	FUNCTION	DATE OF FIRST APPOINTMENT	DATE OF END OF THE TERM OF OFFICE
António Pedro Valente da Silva Coelho (until May 23, 2019)	Chairman	15.04.2016	31.12.2018

In addition to the powers assigned in Article 8 of the Regulation, and described in section 21, the Audit Committee is also responsible for:

- a) Propose to the General Meeting the appointment of the Statutory Auditor (ROC) and external auditor, effective and alternate, the respective remuneration and his dismissal whenever there is just cause for the effect;
- b) Assess the independence of the ROC in audit work and additional services;
- c) Review of the transparency report, signed by the Auditor and published on his website. This report includes related matters on ethics, independence, monitoring and declaration on the effectiveness of the functioning of the internal quality control system;
- d) Receive communications of irregularities presented by shareholders, employees of the Company or others;

- e) Represent the Company, within the scope of its powers, with the external auditor;
- f) Receive communications from the external auditor about deficiencies detected in the internal control system or other irregularities;
- g) Supervision of the Internal Audit and Risk Management activity, with the following scope: (i) Annual activity plan; (ii) Reception and periodic reporting of the activity carried out; (iii) Evaluation of the results and conclusions of the work; (iv) Issuing guidelines understood as convenient;
- h) Approval of the Risk Management and Internal Audit Charter and Risk Management and Internal Audit Manual.

Deloitte & Associados, SROC S.A. and other entities belonging to the same network provided other permitted services referred to in section 46.

#### V. External Auditor

42.

Details of the external auditor appointed in accordance with Article 8 and the partner that represents same in carrying out these duties, and the respective registration number at the CMVM (the Portuguese Securities Market Commission).

The external auditor is the firm Deloitte & Associados, SROC, S.A represented by Jorge Carlos Duarte Batalha Catulo and Carlos Luís Oliveira de Melo Loureiro as substitute.

The external auditor has the CMVM (the Portuguese Securities Market Commission) registration number 43.

State the number of years that the external auditor and respective partner that represents the same in carrying out these duties consecutively carries out duties with the company and/or group.

The external auditor is presently serving its first mandate, after being appointed for the first time for these duties on April 15, 2016, in substitution of the company PricewaterhouseCoopers.

The partner in charge is serving since April 15, 2016.

44.

Rotation policy and schedule of the external auditor and the respective partner that represents said auditor in carrying out such duties.

The policies and schedule of rotation regarding the external auditor and respective partner are those established by the law.

45.

Details of the Board responsible for assessing the external auditor and the regular intervals when said assessment is carried out.

In addition to the General Assembly, the Audit Committee evaluates the performance of the external auditor. In this context, this Committee is responsible for monitoring and evaluating the services provided by the external auditor (auditing and not related to auditing). To carry out this monitoring, the Commission integrates meetings with the external auditor in its agenda in order to: (i) monitor and evaluate the work already done and in progress; (ii) learn about the scope and planning of the audit; (iii) analyze the audit work schedule; and (iv) analyze and assess the conclusions of its audit reports. The Commission works with the external auditor on a regular basis and ensuring adequate working conditions for the performance of all services provided, in order to monitor its independence throughout the year. Likewise, the external auditor must sign a declaration attesting his independence annually.

In addition, and in accordance with current auditing standards, the external auditor must, within the scope of its powers, verify the application of the remuneration policies and systems of the governing bodies, the effectiveness and functioning of the internal control mechanisms and report any deficiencies and irregularities to the Audit Committee.

46.

Details of services, other than auditing, carried out by the external auditor for the company and/or companies in a control relationship and an indication of the internal procedures for approving the recruitment of such services and a statement on the reasons for said recruitment.

The contracting of services other than auditing, provided to the Group in Portugal and abroad, is subject to a rigorous analysis in order to prevent any conflicts of interest with the External Auditor or a member of its network. These services are also assessed for compliance with Law No. 140/2015, of 9 September, and EU Regulation No. 537/2014 of the European Parliament and of the Council, of 16 April.

In addition to the audit work, which includes the statutory audit services, the External Auditor's fees relate to the following distinct audit services: (i) support on the compliance with the GDPR; and (ii) tax advice (preparation of VAT tax returns for Papyrus Deutschland GmgH & Co KG, based in Germany).

The Audit Committee is responsible for assessing and issuing a prior opinion on the provision by the External Auditor of additional audit services to the Company or to companies controlled by it. The Commission approved the services provided under the GDPR. With regard to tax advisory services, they were already provided by companies in the External Auditor's network to Papyrus Deutschland GmgH & Co KG before the conclusion of its acquisition by the Inapa Group on 11 July, 2019. The External Auditor informed the Audit Committee on January 31, 2020 the absence of a prior request for approval of those different audit services, their classification as permitted services and the proposed actions to resolve their consequences. Consequently, and after careful analysis and interactions with the Executive Committee and the External Auditor, the Audit Committee concluded that all measures taken and to be taken will allow a satisfactory treatment of the consequences of noncompliance and gives a reasonable guarantee that the independence is maintained.

In addition, the following safeguards were observed: (i) the contracting of services other than audit services did not affect the independence of the External Auditor; (ii) services other than auditing, duly framed, do not constitute services prohibited in accordance with paragraph 8 of Article 77 of Law No. 140/2015, of 9 September and with the permitted and provided exceptions EU Regulation No. 537/2014 of the European Parliament and of the Council of 16 April, and other applicable legislation; (iii) services other than audit services represented an appropriate balance in relation to the set of services provided; (iv) tax advisory services, when permitted, and other services are provided by technicians other than those involved in the audit process; (v) the auditors' internal control system, according to the information provided, monitors the potential risks of loss of independence, or of possible conflicts of interest with the Company and ensures the quality and rules of ethics and independence.

47.

Details of the annual remuneration paid by the company and/or legal entities in a control or group relationship to the auditor and other natural or legal persons pertaining to the same network and the percentage breakdown relating to the following services (For the purposes of this information, the network concept results from the European Commission Recommendation No. C (2002) 1873 of 16 May).

In the year ended December 31, 2019, the amounts supported with services provided by the main auditors / statutory were as follows:

	COMPANY*	ENTITIES THAT ARE PART OF THE GROUP*
Statutory account review services (€)	€ 56,500 (100%)	€ 316,000
Audit reliability services	_	_
Tax consulting services (€)	_	€ 45,602
Other non-statutory auditing services (€)		€ 43,333

Regarding the costs of Legal Audit and Audit Services, 129 thousand euros were provided by Mazars France.

Tax statutory services refer to services provided by companies in the External Auditor network identified in section 46.

Pursuant to the provisions of paragraph 4, the limitation of voting rights contemplated in paragraph 1 of Article 13-A also applies to resolutions to amend the Articles of association.

### C. Internal Organization

#### I. Articles Of association

48.

The rules governing amendment to the Articles of association (Article 245-A/1/h).

The company's Articles of association, with the exception of the relocation of the headquarters in the national territory, in which the Board of Directors has a specific delegation, can only be changed by resolution of the General Meeting.

For the General Meeting to be able to deliberate on this first call, this matter, must be present or duly represented by shareholders who hold shares representing at least 1/3 of the share capital; on second call, the Meeting may decide whatever the number of shareholders present and the capital represented by them (Art. 383, paragraphs 2 and 3 CSC (the Portuguese Companies Code).

The resolution must be approved by 2/3 of the votes cast, whether the Assembly meets on the first or second call; if, however, on second call, shareholders holding at least half of the share capital are present or represented, the decisions on these matters may be taken by the majority of votes cast.

### II. Reporting Of Irregularities

49.

Reporting means and policy on the reporting of irregularities in the company.

The Board of Directors has adopted internal regulations for disclosure of irregular practices, containing the following features:

- 1. The employees of Inapa Group (management and staff of the parent company, Directors, and management and staff of its affiliate companies) are bound to report any irregular practices of which they may have become aware being perpetrated in Inapa Group companies to the following officials:
  - a) To the Chairman of the Executive Committee of the Board of Directors of Inapa Investimentos, Participações e Gestão, SA should such irregular practices involve the management and staff of the parent company, Directors or the management of its affiliate companies;
  - b) Without prejudice to what stated on the following paragraph, to the Chairman of the Audit

Committee of the Board of Directors should such irregular practices involve the Directors of Inapa – Investimentos, Participações e Gestão, SA or of its supervisory board and/or its staff;

- c) To the Chairman of the Board of Directors should such irregular practices involve a member of the Audit Committee of the Board of Directors of the Company;
- d) By email ethics@inapa.com when related with other employees from affiliate companies.
- 2. In the situations referred in sub-paragraph a) of paragraph 1 above, the Chairman of the Executive Committee shall submit such allegations, with the urgency deemed necessary, to the Chairman of the Audit Committee of the Board of Directors.
- 3. Such allegations shall be submitted in writing, and their author shall be entitled to demand from the recipient a written statement to the effect that the information in question shall be treated in the strictest confidence.
- 4. The reporting official shall be assured that, barring allegations of a calumnious nature, any information provided within the scope of these regulations shall neither be raised as grounds for instituting proceedings against him or her nor for any unfavourable treatment towards him or her.

To be able to act in a swift manner, the company decided that communications should be directed to the executive members or the legal head of the Group. Notwithstanding this communication being performed normally to the CEO or the legal head of the Group, the Audit Committee is informed of all communications that are performed, analysing any irregularities and monitoring its resolutions.

All reported non-compliance situations are treated as confidential and, if requested, anonymously.

#### III. Internal Control and Risk Management

**50**.

Individuals, boards or committees responsible for the internal audit and/or implementation of the internal control systems.

The Board of Directors approved the systems of internal control and risk management of the company and the group, on its own initiative or the Executive Committee of the Board of Directors.

The internal auditor of the Group is responsible for the implementation and evaluation of internal control systems.

Planning and control services of the group are responsible for monitoring the activity of each of the Group companies. Audit Committee and the External auditor, under the powers which he is legally committed, regularly evaluate the mechanisms and discuss adjustment to the needs of society and the Group.

An independent external entity will do an independent validation to the procedures and reporting of information on risk management.

51.

Details, even including organisational structure, of hierarchical and/or functional dependency in relation to other boards or committees of the company.

The organizational structure and hierarchical and functional dependencies are described in section 21.

52.

Other functional areas responsible for risk control.

In addition to the areas identified above should also be noted as areas with responsibility for risk control, the central IT and information systems department, internal control and accounting department in each of the companies and at the level of the shared services centre.

53.

Details and description of the major economic, financial and legal risks to which the company is exposed in pursuing its business activity.

The Group's main activity is the distribution of paper, and as such, it acts as a link between the upstream paper producers and the downstream intermediate consumers (namely companies and paper manufacturing industries,

such as printers, advertisers, media companies, and newspaper and book publishers, among others), modern distributors (large-scale suppliers and specialized retail chains) and end consumers (companies in the office segment and individuals).

Inapa is subject to the inherent risks of the economic sector where it operates and especially to fluctuations in paper price, short-term imbalances between demand and supply, changes in consumption patterns and the performance of the economy in general.

In this context, the most relevant risks to which Inapa is exposed while conducting its business are associated with its capacity to pass changes in the purchase price of paper and in its operating costs on to customers through selling prices, particularly costs related to logistics and transportation.

Additionally, the paper distribution business is sensitive to changes in the behavioural patterns of the demand, mainly in segments such as advertising and media, and to changes in the distribution structure.

The balance between supply and demand depends on a variety of factors, among which we highlight the trends in installed production capacity and the level of overall economic activity.

The Group's capacity to reflect in products prices, or the fees it charges for the services it provides, the increase of paper price and/or fuel is not totally elastic. The direct margins of products sold and the net contribution of services rendered may be adversely impacted by such adverse trends. The transport costs associated to our delivery services may increase and consequently adversely impact on the Group's performance, financial situation, and earnings.

Inapa counts with some means of mitigating this risk, among which stand out its systems, which introduce various levels of authority according to the margin generated by the operation in the sales process.

The developments in the productive capacity of the different geographical markets, trends in paper demand in emerging economies such as China and India and its impact on those markets' suppliers, the impact of exchange rate fluctuation on the competitiveness of the various markets, and a number of regulatory issues that affect the world paper trade are all factors which, either in combination or in isolation, may directly or indirectly impact the performance of the Company, its financial situation and its earnings performance.

Furthermore, the paper distribution business has undergone structural changes in recent years, as a result of mergers among paper merchants, especially in Europe. Competitor moves may directly or indirectly impact the Company's future

strategic decisions and, therefore, its positioning in each particular market and, consequently, affect its economic and financial returns and asset allocation.

Inapa is present in 8 European countries and, since 2009 and 2013, in Angola and Turkey. Its external activity accounts for about 96% of the total business volume. All these circumstances, naturally exposes Inapa's business to risks that arise from the specific performance of each economy in which it operates. On the other hand, it is also a risk mitigation factor due to the unfavorable occurrence of the same pattern of economic behavior in all markets simultaneously.

However, the currency exposure is limited, although real, as the value of sales in a currency euro (US dollar, kwanza and Turkish lira) represents about 3% of total Group sales.

As in any company or economic group, Inapa's performance depends on its ability to maintain its customer database. In addition to over 80,000 customers, the geographic dispersion, offering a wide range of products, competitive and high quality, along with an adequate level of service pre- and post-sales, Inapa has been developing a customer loyalty program that offers complementary services and products to its core business, with the purpose of becoming more and more a global service provider in the paper market.

The impact on local economies of a downturn in the world economy may make it difficult for customers of the Inapa Group to meet their obligations towards the Group.

As a credit risk mitigation factor, Inapa contracted in 2011, a credit insurance policy to cover for credit risk of its operating subsidiaries with a major insurance company in Europe. This insurance covers core countries of the Group (Germany, France, Portugal, Spain and Turkey), thus covering the majority of Group sales.

Regardless of the coverage contemplated above, Inapa also manages credit risk by acting as follows: each Group subsidiary has its credit collections committee composed by the CEO, CFO and head of sales and purchases; credit limits are defined and recorded in the information system and inhibit new orders when limit is fully utilized; limits of credit granting are subject to annual review and/or whenever there is relevant information arising from the recommendation of the internal and external monitoring systems; approval of sales above the defined credit limits are subject to Board approval of each company.

A slowdown in economic growth rates or a decrease in consumer and producer confidence indexes may, in turn, lead to a slowdown or fall in the paper demand, namely the demand for writing and printing paper, thereby adversely affecting its operations, sales, earnings, and the overall

financial standing of the Inapa Group.

The Group's ability to successfully implement the established strategy is a function of its ability to retain, and if necessary to hire, the most competent and adequately skilled staff to perform each duty.

Despite its human resources policy being oriented to these goals, it is not possible to guarantee that in the future there are no restrictions in this area.

The company's demand and operational activity are subject to the risks of pandemics. Operational risks are mitigated (i) by the high geographical dispersion of its operations, both at the Group level and at the level of each of the national operations and its suppliers, (ii) by the contingency plans adopted by each Group company that ensure that, with the exception of the storage and transport areas, which require the physical presence of workers, the others can be assured, essentially, through teleworking.

The implementation of measures that influence the mobility of people or goods by government entities could have a significant impact in terms of treasury and general financing of the activity.

Inapa gives to some employees of its subsidiaries Inapa France SAS, Inapa Packaging SAS, Semaq SAS, Papyrus Deutschland and Papier Union GmbH, supplement plans of retirement and survivors' pensions, having duly accounted for the inherent expenses and costs associated with such benefits in accordance with the specifications of International Accounting Standard 19 (IAS 19).

The balance reported in the consolidated accounts under liabilities for pension benefits is based on predefined assumptions on mortality rates, whereas the beneficiaries of the pension fund schemes in question may live longer than what such assumptions accounted for and, as such, may draw benefits from the pension fund in excess of the provisions for such benefits.

Therefore, liabilities for pension benefits may have an adverse impact on cash flows.

Regarding the consolidation of accounts, Inapa has methods to mitigate internal and external risks.

As in any other activity, Inapa may be a party in litigation arising from the conduct of its business, including legal proceedings which may have been ruled in favour of the Group, fully or partially, or sentences that may be subject to recourse or petition for their annulment by the counterparties in conformance with applicable legal procedure and until that time as such sentences have been upheld in a court of final appeal.

Inapa has the support of local legal advisory teams that assist the subsidiaries in each geography in the pre-litigation and litigation phases of disputes, being monitored / coordinated by the legal department of the Holding, whenever their relevance or specificity recommends it.

Inapa Group's operations require investments. It is Inapa's intention to partly fund those investments with cash resources generated from operations. However, should its operations fail to generate sufficient cash resources, Inapa may be required to partly fund the envisaged investments with funding raised from external sources, including bank finance and/or funds raised from financial and capital markets instruments.

In addition, Inapa Group is exposed to a number of other risks, namely liquidity risk, interest rate risk, market risk on the price of raw materials, operating, environment risk and other risks.

Considering that Inapa does not hedge its exposure to adverse changes in market interest rates, such changes may, in turn, have an adverse impact on its performance, financial situation, and earnings.

Nevertheless, and in order to manage such risks, the Group's Finance Department strives to manage the impact of changing interest rates by monitoring market developments on an ongoing basis and by being in a position to contract financial instruments to mitigate the impact of interest rate volatility.

In a context of sector consolidation, Inapa may be the target of a public tender offer.

Despite the fact that the Group has been implementing careful risk management methodologies to manage every type of risk to which it is exposed, in the event of exceptionally adverse scenarios materializing, the policies and procedures employed by Inapa to identify, monitor, manage, and mitigate such risks may prove not to be fully effective.

To operate in the business areas of paper, packaging and visual communication, the Group needs working capital. More adverse economic scenarios that would change the commercial and financial policies of our partners, including suppliers, clients and financial institutions can create additional working capital needs that would pressure the liquidity levels.

Inapa manages the Group's liquidity risk by acting as follows: striving to structure the Group's financial indebtedness to feature a large percentage of medium and long-term debt, with a maturity that adequately matches its ability to generate cash resources; resorting to credit facilities it may draw on at any time (overdraft credit

facilities). Treasury management is done locally in each Group company supervised by the Holding Company. Cash flow forecast is regularly updated and monitored to avoid potential deviations.

On Note 3 of the consolidated financial accounts there is more detailed information about the management of the different natures of financial risks (capital markets, receivables, concentration of credit lines and liquidity risk).

On Notes 8 and 9 of the consolidated financial accounts it can be analysed the goodwill and intangible assets with their impairment and sensitivity tests.

In the course of conducting Inapa's normal business, and owing to its organizational structure, the Group is subject to certain operational risks, including possible interruptions in the services it renders or delays in providing such services, omissions, errors.

These risks are monitored by the Company on an ongoing basis by means of the administrative and information systems it implemented for that purpose, having also arranged for insurance policies to cover certain operational risks.

The normal development of the business may be temporarily affected by risks arising from the merger or restructuring of subsidiaries.

Inapa Group's operations are also dependent on IT processing, which involves the storing and processing of financial reporting records, monitoring and control records from its logistics, warehousing and delivery services, and internal accounting records.

Notwithstanding the ongoing assessment of the condition of its information systems and the fact that our capacity has proven to be reliable, it is not possible to absolutely guarantee a full identification and timely redressing of every single issue concerning the information technology systems or the unqualified success of every single implementation of a technological enhancement to such systems.

The company may also be exposed to risks related to migration processes of core IT systems, which may have a transitory effect on the activity.

The risk of IT fraud/cyber-attack is gaining international importance, not being possible to mitigate completely this risk, despite the measures and procedures in place.

In this scenario, there could be significant changes in Inapa's current strategy with implications for the several businesses and markets where it operates.

Inapa Group may be adversely affected by amendments to ruling legislation and to other tax legislation applicable in Portugal, the European Union and the particular countries where it operates.

The Group's units are subject to risks that are inherent to the conduct of any economic activity, such as accidents, faults or natural catastrophes that may cause damages to the Group's assets or a temporary interruption of its trading activities.

54.

Description of the procedure for identification, assessment, monitoring, control and risk management.

The identification and assessment of risks is an ongoing process taking part in the Board of Directors, Executive Committee, Audit Committee and internal audit; priorities are established regarding risks assumption, through an assessment and mitigation work plan of risks. The existing risks and mechanisms that allow its identification and assessment are described in the previous section.

Monitoring, control and risk management is carried out continuously by the Executive Committee. During the year, the Audit Committee and External Auditor also conduct audits of the effectiveness of risk management system, internal control and reliability of the computer systems, also counting on the regular report of the internal audit.

### **55**.

Core details on the internal control and risk management systems implemented in the company regarding the procedure for reporting financial information (Article 245-A/1/m).

The process of disclosure of financial information is monitored by both the management and supervisory bodies, as well as by business units and the corporate centre. The accounting documents and other financial information are prepared by the Consolidation and Planning and Control Departments, based on the information provided by the business units.

In its report and opinion, the Audit Committee states that it monitored and appreciated the implementation of systems to collect data and relevant elements that make up Inapa's internal risk management and control and monitored the implementation of common IT platforms to strengthen mechanisms of control.

### III. Remuneration Structure

Description of the remuneration policy of the Board of Directors and Supervisory Boards as set out in Article 2 of Law No. 28/2009 of 19 June.

The remuneration policy has been the object of a separate assessment by the General Meeting of May 23, 2019.

In such General Meeting, the following description on remuneration policy has been approved:

### "I. Introduction

Under the terms of paragraph 1 Article 2 of Law 28/2009 of June 19, the Remuneration Committee of Inapa - Investimentos, Participações e Gestão, SA ("Inapa" or "Company") must submit annually the approval to the General Meeting of a declaration about the remuneration policy of its Governing Bodies.

Additionally, Recommendation V.2 of the Corporate Governance Code, approved by the Portuguese Institute of Corporate Governance in 2018, recommends that the mentioned statement includes a set of additional elements to be submitted to the General Meeting.

It should be noted that this declaration, in addition to being mandatory, aims to constitute itself as an effective instrument of good Corporate Governance, in order to provide information to shareholders, protect their interests and provide greater transparency in the remuneration policies of Governing Bodies.

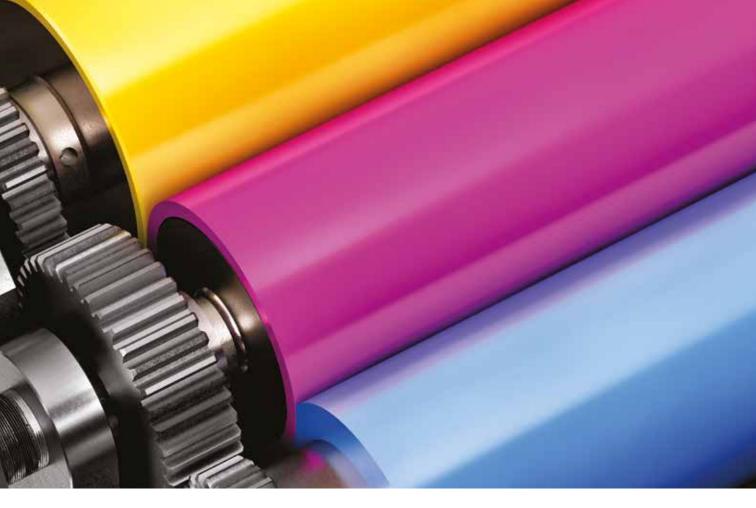

On this statement current remuneration policies have been examined and made suggestions to ensure that remuneration policies are appropriate and reflect the risk profile and long-term objectives of the Company, taking into account market practices and assuming that practice should be based on uniform, consistent, fair and balanced criteria.

On the market where Inapa is present, one of the main critical success factors is the ability to attract, motivate and retain the best existing professionals.

Current declaration has been prepared by the Remuneration Committee of Inapa elected on the General Meeting of April 15, 2016, being composed by three members, independent from the Board of Directors and Audit Committee and with knowledge and experience in remuneration policies.

In order to comply with the applicable legislation and regulations, the Remuneration Committee submits to the annual General Meeting, to be convened on May 23, 2019, the declaration of the remuneration policies applicable to Inapa Governing Bodies.

### II. Remuneration policy to the Governing Bodies

In order to determine the remuneration to be attributed to the members of the Governing Bodies, which shall be disclosed in the Corporate Governance Report, Inapa shall be governed by the following criteria:

- Simplicity, clarity, transparency and alignment with the Company's culture, also taking into account the Group in which it operates;
- Competitiveness, taking into account market practices and fairness and the remuneration practice is based on uniform, consistent, fair and balanced criteria;
- Pursuing excellence in management through a set of benchmark business practices that enable the Company to achieve balance and sustainability; and
- Determination of the individual variable remuneration considering the respective performance evaluation, based on financial and non-financial criteria, according to the functions and level of responsibility, as well as the results of the Company.

### III. Remuneration policy to non-executive directors, including Audit Committee members

The remuneration of the non-executive members of the Governing Bodies had exclusively a fixed component, paid 12 times a year.

Similarly, the additional fixed remuneration also takes into consideration the function on the Audit Committee and the functions of the Chairman of the Committee.

Specifically, the remuneration of non-executive directors was determined for the 2016/2018 mandate. In 2018, the fixed remuneration paid to non-executive directors corresponds to the amount indicated in the company's 2017 governance report.

# IV. Remuneration policy for executive directors in effect and allocation of variable remuneration component to the executive members of the Board of Directors for 2018

With the change in the remuneration policy, as a result of the approval of the proposal of this Remuneration Committee submitted to the approval of Inapa shareholders at the general meeting of April 28, 2017, the remuneration of the executive members of the Board of Directors is now composed of a fixed component and a variable component, as set out in section V below.

The application of the variable remuneration allocation rules, outlined in section V below, results that the executive members of the Board of Directors will be entitled to receive the variable component of the annual remuneration related to their performance in 2018.

However, the remuneration regulation of INAPA's governing bodies (approved by the Remuneration Committee) does not allow such variable remuneration to exceed each year the amount equivalent to 10% of INAPA's net income for the year.

INAPA's net income for the year ended December 31, 2018 (calculated according to the income statement of INAPA for the same period, which was subject to legal certification of accounts by the company's statutory auditor) amounted to approximately  $\leqslant$  3,575,000.00 negative, thus variable remuneration cannot be granted.

To this extent, and to speed and minimization of costs associated with its activity, the Remuneration Committee waived the formal procedure for evaluating the performance of the members of the Executive Committee of the Board of Directors, whose sole purpose is to calculate and propose to shareholders the attribution of variable remuneration.

Therefore, the Remuneration Committee proposes to the shareholders that no variable remuneration is attributed to the members of the Executive Committee of the Board of Directors of Inapa regarding their performance in 2018.

Notwithstanding the foregoing, the Remuneration Committee wishes to highlight the good performance of the executive members of the Board of Directors in pursuing Inapa's strategic and financial objectives, regarding the work that has been done since the beginning of their mandate, in 2016.

## V. Fixed and variable components of attribution of variable remuneration to the executive members of the Board of Directors

### **Fixed component**

The value of the fixed component was set on the term 2016/2018. On 2018 the paid fixed remuneration to executive directors corresponds to the amount presented on the 2017 Governance Report, paid 14 times a year.

### Variable component

The attribution of variable remuneration is based on the achievement of quantitative and qualitative objectives, which are associated with objective, simple, transparent and quantifiable (quantitative objectives) performance indicators, as outlined below:

- 1. The variable remuneration shall be paid in cash, taking into account the following reference values (Target) and ceilinas:
  - i) Target variable remuneration 20% of the respective fixed remuneration of the respective executive member of the Board of Directors:
  - ii) Maximum amount of attributable remuneration 30% of the respective fixed remuneration of the respective executive member of the Board of Directors.
- 2. Specifically, the allocation and calculation of the variable remuneration is based on the results of the performance evaluation of the executive members of the Board of Directors, carried out with reference to the whole calendar year concerned, and is determined by considering the following components:
  - i) Quantitative component includes the evaluation of Inapa's performance through quantitative indicators, with a global weight of 80%;
  - ii) Qualitative component covers the weighted average of the competency assessment of the executive member of Inapa's Board of Directors with a global weight of 20%.
- 3. The concrete achievement of the mentioned quantitative objectives must be previously validated and certified by an independent external entity at an earlier time.
- 4. The annual variable remuneration of each executive director is attributed in cash, after approval of accounts for the year to which he refers, in compliance with the

minimum limits and legal conditions, and is paid as follows: (a) 50% of the remuneration variable is paid in the month following the date of the meeting of Inapa's annual shareholders' meeting, (b) the remaining 50% of the deferred variable remuneration being paid during each of the 3 years following the date of payment of the amount referred to in (a) (1/3 per year).

- 5. The variable remuneration is subject, in whole or in part, to mechanisms of (a) reduction of the variable remuneration prior to its attribution (malus) and (b) reversal by way of retention of part or all of the remuneration a variable attributed whose payment of any of its installments has not yet been performed (claw back), the latter being a supplementary mechanism if the reduction mechanism proves to be insufficient, in the following situations:
  - i. the executive member of Inapa's Board of Directors in question participated directly and decisively or was responsible for an action that resulted in significant losses for Inapa;
  - ii. serious or fraudulent breach of Inapa's code of conduct or internal rules by the executive member of the Board of Directors with a significant negative impact on Inapa, or situations justifying just cause of dismissal of the executive member of the Board of Directors; and / or
  - iii. false statements and / or material errors or omissions in Inapa's financial statements for which the objective conduct of the executive member of the Board of Directors has contributed decisively.
- 6. In the event of termination of duties of the executive member of the Board of Directors, for any reason (other than dismissal for good cause or due to the verification of another situation giving rise to the application of the malus or claw back mechanisms), after the end of the variable remuneration period, but before the full payment of the respective variable remuneration, the full variable remuneration will be paid.
- 7. The payment of the variable remuneration corresponding to the fiscal year in which the executive member of the Board of Directors ceases functions shall not be due, except in cases of termination by mutual agreement, retirement, death, invalidity or in any other case of early termination of the mandate, for reasons not attributable to the executive member of the Board of Directors (in particular, changes in the control of the Company, among others, following a takeover bid or other fact unrelated to the executive member of the Board of Directors), in which case variable remuneration will be due *pro rata temporis*.

- 8. In the event of the termination of the duties of the executive members of the Board of Directors, before the end of the term of office due to dismissal for just cause or due to the verification of another situation giving rise to the application of the malus or claw back mechanisms, the last will lose the right to receive all the variable remuneration paid but not paid.
- 9. The variable remuneration of the executive members of the Board of Directors shall not exceed 10% in each year of the net results of the INAPA year.

#### **Benefits**

The following benefits are assigned to Executive Directors:

- a) Life insurance, whose value is measured according to the amount of basic compensation of each of the executive directors:
- b) Automobile, including the maintenance and insurance, whose total value varies among executive directors according to the responsibilities assumed;
- c) Fuel fleet card: and
- d) Mobile phone.

### VI. Remuneration policy of the Statutory Auditor

The Statutory Auditor of the Company is remunerated in the terms and conditions agreed in the service agreement entered into between it and Inapa, in accordance with market practices and the legal and recommendation framework.

### VII. Alignment of interest of members of the Board of Directors with Inapa

### a. Non-executive directors, including Remuneration Committee members

Although the remuneration practices take into account the financial condition of Inapa and its holding, no form of variable remuneration is foreseen for the non-executive members of the administrative body or for the members of the supervisory body.

In this way, non-executive directors do not have any component of their remuneration dependent on the fulfilment of objectives in order to safeguard their independence.

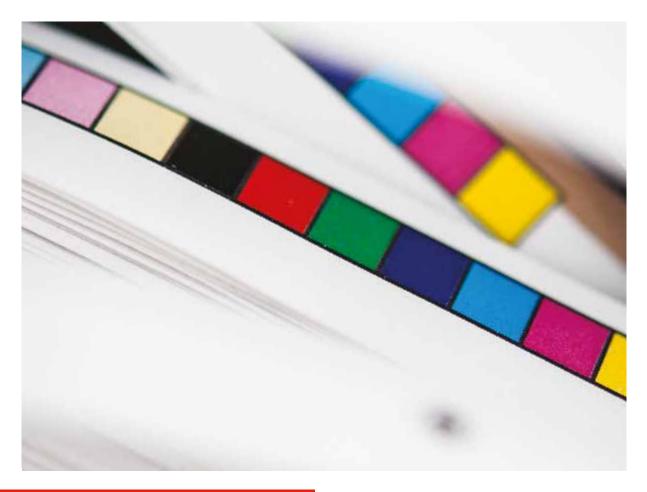

The remuneration of the non-executive directors was based on the actual performance and the balance in the appraisal.

### b. Executive directors

With the change in the remuneration policy approved by the General Meeting of INAPA on April 28, 2017, the remuneration of the executive members of the Board of Directors:

a. is now aligned with the market and with the functions effectively performed, stimulating the performance of the executive members of the Board of Directors, in individual and group terms; b. allows to reward the results achieved by the executive members of the Board of Directors; c. help in attracting and retaining qualified staff to INAPA.

It should also be noted that, in order to align the interests of the members of the management body with INAPA's interests, the executive members of the Board of Directors should not conclude contracts or other instruments, either with INAPA or with third parties, mitigate the risk inherent in the variability of their remunerations.

## VIII. Amounts in any capacity paid by other companies regarding domain or group or which are subject to a common domain

No amounts were paid to the members of the Board of Directors by other companies in a dominant or group relationship or which are subject to a common domain.

### IX. Stock plans or stock options

The Company has no stock plans or stock options of Inapa titles to its Governing Bodies or employees.

## X. Information regarding the enforceability or unenforceability of payments related to dismissal and dismissal of directors

There are no contractual limitations in place for any compensation to be paid to managers for dismissal without just cause.

The Remuneration Policy does not establish any express mechanisms to demand any compensation or compensation beyond that legally due.

Inapa has no agreements in place with members of its Board and / or top managers that provide for compensation in the event of dismissal, unjustified dismissal or termination of the employment relationship following a change of control of the Company.

XI. Information on the maximum potential amount, on an individual basis, and the maximum potential amount, in aggregate terms, payable to the members of the Governing Bodies and identification of the circumstances in which those maximum amounts may be due

The maximum potential amount, in individual terms and the maximum potential amount, in aggregate terms, payable to the members of the Executive Board of the Board of Directors is as follows:

- a) Chairman of the Executive Committee:
- € 455,000.00
- b) Members of the Executive Committee:
- € 336,700.00
- c) Total: € 1,128,400.00

As mentioned above, Inapa's net income will not allow, under the terms of the remuneration regulations for the members of Inapa's governing bodies, the attribution to the members of the company's Executive Committee of any amount as variable remuneration."

70.

Information on how remuneration is structured so as to enable the aligning of the interests of the members of the board of directors with the company's long-term interests and how it is based on the performance assessment and how it discourages excessive risk taking.

The remuneration of the non-executive members of the Board of Directors did not include any variable remuneration.

The attribution of variable remuneration to executive members is based on the achievement of quantitative and qualitative objectives that are associated with objective, simple, transparent and (in relation to quantitative objectives) measurable performance indicators, as outlined below:

- "1. The variable remuneration is paid in cash, considering the following reference values (Target) and maximum limits:
  - i) Target of the variable remuneration 20% of the respective fixed remuneration of the respective executive member of the Board of Directors;
  - ii) Maximum value of the attributable remuneration 30% of the respective fixed remuneration of the respective executive member of the Board of Directors.
- 2. In particular, the attribution and calculation of the variable remuneration amount is based on the results of the performance evaluation of the executive members of the Board of Directors, with reference to the entire calendar year in question, being determined considering the following components:
  - i) Quantitative component covers the assessment of Inapa's performance through quantitative indicators, with an overall weight of 80%;
  - ii) Qualitative component covers the weighted

average of the skills assessment of the executive member of the Inapa's Board of Directors concerned, with a global weight of 20%."

The concrete achievement of the referred quantitative objectives must be previously validated and certified by an independent external entity at an earlier time.

The annual variable remuneration of each executive director is attributed in cash, after approval of accounts for the year to which he refers, in compliance with the minimum limits and legal conditions, and is paid as follows: (a) 50% of the remuneration variable is paid in the month following the date of the meeting of Inapa's annual shareholders' meeting, (b) the remaining 50% of the deferred variable remuneration being paid during each of the 3 years following the date of payment of the amount referred to in (a) (1/3 per year).

The variable remuneration is subject, in whole or in part, to mechanisms of (a) reduction of the variable remuneration prior to its attribution (malus) and (b) reversal by way of retention of part or all of the remuneration a variable attributed whose payment of any of its installments has not yet been performed (claw back), the latter being a supplementary mechanism if the reduction mechanism proves to be insufficient, in the following situations:

- (i) the executive member of Inapa's Board of Directors in question participated directly and decisively or was responsible for an action that resulted in significant losses for Inapa;
- (ii) serious or fraudulent breach of Inapa's code of conduct or internal rules by the executive member of the Board of Directors with a significant negative impact on Inapa, or situations justifying just cause of dismissal of the executive member of the Board of Directors; and/or

(iii) false statements and/or material errors or omissions in Inapa's financial statements for which the objective conduct of the executive member of the Board of Directors has contributed decisively.

The remuneration structure of the executive directors, described on the previous point, establishes a fix and variable component, which should be aligned with market practices.

71.

Reference, where applicable, to there being a variable remuneration component and information on any impact of the performance appraisal on this component.

It is expected that the remuneration of executive directors will have a variable component dependent on a performance assessment under the terms previously addressed with a quantitative and qualitative component, as described on the previous point.

**72**.

The deferred payment of the remuneration's variable component and specify the relevant deferral period.

Half of the variable remuneration to executive directors should be deferred into the three subsequent years counting from the data of the payment in three equal instalments.

73.

The criteria whereon the allocation of variable remuneration on shares is based, and also on maintaining company shares that the executive directors have had access to, on the possible share contracts, including hedging or risk transfer contracts, the corresponding limit and its relation to the total annual remuneration value.

The remuneration of executive Directors does not establish any component based in shares.

The shares that are held by directors do not result of any variable remuneration scheme.

74.

The criteria whereon the allocation of variable remuneration on options is based and details of the deferral period and the exercise price.

The remuneration of executive Directors does not establish any component based in options.

**75**.

The key factors and grounds for any annual bonus scheme and any additional non-financial benefits.

To determine the remuneration to be attributed to the members of the governing bodies, INAPA is governed by the following criteria:

- Simplicity, clarity, transparency, and alignment with the Company's culture, also taking into account the Group in which it operates;
- Competitiveness, taking into account market practices and equity, and the remuneration practice is based on uniform, consistent, fair and balanced criteria;
- Pursuing excellence in management, through a set of leading business practices, which enable the Company to achieve balance and sustainability; and
- Calculation of individual variable remuneration considering the assessment of the respective performance, based on criteria of a financial and non-financial nature, according to the functions and the level of responsibility, as well as the results of the Company.

The Remuneration Committee considers the remuneration of the executive members of the Board of Directors:

 a. is now aligned with the market and with the functions effectively performed, stimulating the performance of the executive members of the Board of Directors, in individual and group terms;

b. allows to reward the results achieved by the executive members of the Board of Directors;

c. help in attracting and retaining qualified staff to INAPA. It should also be noted that, in order to align the interests of the members of the management body with INAPA's interests, the executive members of the Board of Directors should not conclude contracts or other instruments, either with INAPA or with third parties, which could mitigate the risk inherent in the variability of their remunerations.

No other benefits are defined, in addition to those provided for in the remuneration policy:

- a) Life insurance, whose value is measured according to the amount of basic compensation of each of the executive directors;
- b) Automobile, including the maintenance and insurance, whose total value varies among executive directors according to the responsibilities assumed;
- c) Fuel fleet card; and
- d) Mobile phone.

76.

Key characteristics of the supplementary pensions or early retirement schemes for directors and state date when said schemes were approved at the general meeting, on an individual basis.

There are no supplementary pensions or early retirement schemes for Board of Directors and Audit Committee members.

The remuneration scheme approved at the General Meeting contemplates, in its quantitative component, indicators that influence the generation of results of the Group, but there are no mechanisms for reimbursement of results.

It should be noted that the remuneration regulation of INAPA's corporate bodies (approved by the Remuneration Committee) does not allow such variable remuneration to exceed in each year the amount equivalent to 10% of net income for INAPA's year.

### 80.

Compensation paid or owed to former executive directors concerning contract termination during the financial year.

No compensations were paid to former executive directors nor are due compensations for the cessation of their duties during the last financial year.

The remuneration policy in what regards to variable remunerations establishes:

• In the event of termination of duties of the executive member of the Board of Directors, for any reason (other than dismissal for good cause or due to the verification of another situation giving rise to the application of the malus or claw back mechanisms), after the end of the variable remuneration period, but before the full payment of the respective variable remuneration, the full variable remuneration will be paid.

• The payment of the variable remuneration corresponding to the fiscal year in which the executive member of the Board of Directors ceases functions shall not be due, except in cases of termination by mutual agreement, retirement, death, invalidity or in any other case of early termination of the mandate, for reasons not attributable to the executive member of the Board of Directors (in particular, changes in the control of the Company, among others, following a takeover bid or other fact unrelated to the executive member of the Board of Directors), in which case variable remuneration will be due pro rata temporis.

In the event of the termination of the duties of the executive members of the Board of Directors, before the end of the term of office due to dismissal for just cause or due to the verification of another situation giving rise to the application of the malus or claw back mechanisms, the last will lose the right to receive all the variable remuneration paid but not paid.

The variable remuneration is subject, in whole or in part, to mechanisms of (a) reduction of the variable remuneration prior to its attribution (malus) and (b) reversal by way of retention of part or all of the remuneration a variable attributed whose payment of any of its installments has not yet been performed (claw back), the latter being a supplementary mechanism if the reduction mechanism proves to be insufficient, in the following situations:

i. the executive member of Inapa's Board of Directors in question participated directly and decisively or was responsible for an action that resulted in significant losses for Inapa;

The Company does not have any share-allocation or stock option scheme to award shares in the capital of the Company to its governing bodies or personnel and has no control mechanisms in case of eventual voting rights exercised by employees.

### E. Transactions with Related Parties

### I. Control mechanisms and procedures

89.

Mechanisms implemented by the Company for the purpose of controlling transactions with related parties (For said purpose, reference is made to the concept resulting from IAS 24).

The Board of Directors of Inapa - Investimentos, Participações e Gestão, SA has approved, on proposal of the Audit Committee, regulations related to business deals to be carried out between the Company and entity relationships with the former.

For purposes of the aforementioned regulations, the owners of qualifying holdings or entity relationships as well as the Company board members and/or of its subsidiaries are considered, under the terms of Article 20 of the CVM (the Portuguese Securities Code).

With such regulations it has been defined, as object of specific supervisory duties of the Audit Committee, the deals carried out between those entities and the Company and/ or its subsidiary companies establishing three supervisory actions:

- Previous binding recommendation;
- Previous recommendation;
- A posteriori appraisal.

Under the terms of the referred regulations, the deals to be carried out between the Company board members and/or of its subsidiary companies with the Company or subsidiaries, are subjected to previous and binding recommendation of the Audit Committee, with exception of the deals within the scope of the company's business itself, in which no special advantage is granted to the persons in question.

The relevant deals or transactions to be carried out between the Company and/or its subsidiary companies with owners of qualifying holdings or entity relationships with the former are subjected to previous recommendation, in conformance with Article 20 of CVM (the Portuguese Securities Code).

Given the situation of the Company and its subsidiary companies, the following limits have been fixed, after which the business or transactions are deemed as significantly relevant, whose standards could be subject to possible conflicts of interest:

TYPE OF TRANSACTION	LIMIT
Purchasing and selling of goods and services	€ 750,000
Financial investments	€ 5,000,000
Loans and other type of funding, excluding simple renewals	€ 10,000,000
Other transactions	€ 500,000

Notwithstanding the aforementioned criteria, the deals or transactions with owners of qualifying holdings or entity relationships with the former that, due to its nature, value or conditions may have particular relevance in terms of transparency and/or conflict of interests, are also subject to a previous recommendation of the Audit Committee.

### II. Data on business deals

Finally, it is stated in the referred regulations that all transactions with entities having a relationship with the Company that do not require a previous recommendation of the Audit Committee (either binding or not) are compulsorily submitted to the appraisal by this supervisory body and, for this effect, shall be notified up to the end of the month subsequent to said transactions, allowing to follow it up.

In addition, the regulations stipulate that the Audit Committee shall deem the reasonability and transparency of the business and transactions submitted to its appraisal, namely in what regards to pursuing the interests of the Company and its subsidiary companies, taking into account the normal market conditions where such operations are carried out and that they do not provide, directly or indirectly, a more favourable treatment than the one obtained by third parties under equal circumstances and, in the case of owners of qualifying holdings or entity relationships with the former, an unfair treatment in relation to the other shareholders.

The Executive Committee reports all cases to the Audit Committee, being subject to analysis in the next meetings.

### 90.

Details of transactions that were subject to control in the referred year.

There were no transactions with related parties that needed the specific control from the Audit Committee, besides time extensions of existing financing facilities.

### 91.

A description of the procedures and criteria applicable to the supervisory body when same provides preliminary assessment of the business deals to be carried out between the company and the holders of qualifying holdings or entity-relationships with the former, as envisaged in Article 20 of the Securities Code.

The procedures and criteria are described in section 89.

92.

Details of the place where the financial statements including information on business dealings with related parties are available, in accordance with IAS 24, or alternatively a copy of said data.

The information about business deals with related parties is described on Note 33 to the consolidated financial statements of the company.

#### III. Other elements

93.

Means for prevention and management of conflicts of interest.

In December 2017, the Board of Directors approved the new Code of Conduct, which covers all employees and administrators of the Inapa Group (including members of the Board of Directors).

The Code of Conduct indicates that there is a conflict of interest when your personal activities interfere, or seem to interfere, with your judgment in acting in the best interest of Inapa.

It is defined that employees and directors should refrain from doing business with family members or with others with whom they have relevant relationships. Members should not use their position in Inapa to get special treatment for themselves or their family or someone with meaning that is relevant to them. It applies to the purchase of products, sales, investments, contracting selection of contractors or suppliers or any other business relationships.

All external professional activities, whether paid or not, must be communicated and cannot raise any conflicts of interest with Inapa. No assets of the company may be used during the exercise of any external professional activity.

If any director is in a situation of possible conflict of interests, he or she must notify the Chairman of the Board of Directors, or if the potential conflict affects him, to the Chairman of the Audit Committee, and exclude himself from the decision-making process.

It is further envisaged that no employee, manager or director should participate in the decision-making related to a company where it may have a direct or indirect financial interest.

Finally, the Code of Conduct further stipulates that gifts, meals, entertainment or any favour from suppliers, service providers or customers should not be accepted that could compromise or appear to compromise their judgment when making objective decisions in the best interests of the INAPA.

#### PRINCIPLES:

- **1.2.A** Companies ensure diversity in the composition of its governing bodies, and the adoption of requirements based on individual merit, in the appointment procedures that are exclusively within the powers of the shareholders.
- **I.2.B** Companies should be provided with clear and transparent decision structures and ensure a maximum effectiveness of the functioning of their governing bodies and commissions.

### RECOMMENDATIONS:

**I.2.1.** Companies should establish standards and requirements regarding the profile of new members of their governing bodies, which are suitable according to the roles to be carried out. Besides individual attributes (such as competence, independence, integrity, availability, and experience), these profiles should take into consideration general diversity requirements, with particular attention to gender diversity, which may contribute to a better performance of the governing body and to the balance of its composition.

### PRINCIPLE

Members of the company's Board, especially directors, should create, considering the duties of each of the boards, the appropriate conditions to ensure balanced and efficient measures to allow for the different governing bodies of the company to act in a harmonious and coordinated way, in a possession of the suitable amount of information in order to carry out their respective duties.

### RECOMMENDATIONS

**I.3.1.** The Articles of association, or other equivalent means adopted by the company, should establish mechanisms that, within the limits of applicable laws, permanently ensure the members of the managing and supervisory boards are provided with access to all the information and company's collaborators, in order to appraise the performance, current situation and perspectives for further developments of the company, namely including minutes, documents supporting decisions that have been taken, calls for meetings, and the archive of the meetings of the managing board, without impairing the access to any other documents or people that may be requested for information.

#### CHAPTER II — SHAREHOLDERS AND GENERAL MEETING

#### **PRINCIPLES**

- **II.A** As an instruments for the efficient functioning of the company and the fulfilment of the corporate purpose of the company, the suitable involvement of the shareholders in matters of corporate governance is a positive factor for the company's governance.
- **II.B** The company should stimulate the personal participation of shareholders in General Meetings, which is a space for communication by the shareholders with the company's Board and Committees and also of reflection about the company itself.
- **II.C** The company should also allow the participation of its shareholders in the General Meeting through digital means, postal votes and, especially, electronic votes, unless this is deemed to be disproportionate, namely taking into account the associated costs.

RECOMMENDATIONS		
<b>II.1.</b> The company should not set an excessively high number of shares to confer voting rights, and it should make its choice clear in the corporate governance report every time its choice entails a diversion from the general rule: that each share has a corresponding vote.	Yes	1 12 13
<b>II.2.</b> The company should not adopt mechanisms that make decision making by its shareholders (resolutions) more difficult, specifically, by setting a quorum higher than that established by law.	Yes	14
<b>II.3.</b> The company should implement adequate means for the exercise of voting rights through postal votes, including by electronic means.	Partial	12
<b>II.4.</b> The company should implement adequate means in order for its shareholders to be able to digitally participate in general meetings.	No	12
<b>II.5.</b> The Articles of association which specify the limitation of the number of votes that can be held or exercised by a sole shareholder, individually or in coordination with other shareholders, should equally provide that, at least every 5 years, the amendment or maintenance of this rule will be subject to a shareholder resolution — without increased quorum in comparison to the legally established — and in that resolution, all votes cast will be counted without observation of the imposed limits.	Yes	13

PRINCIPLE/RECOMMENDATION	COMPLIANCE	REMISSION PART I
<b>II.6.</b> The company should not adopt mechanisms that imply payments or assumption of fees in the case of the transfer of control or the change in the composition of the managing body, and which are likely to harm the free transferability of shares and a shareholder assessment of the performance of the members of the managing body.	Yes	16 69 80 83 84

### CHAPTER III — NON-EXECUTIVE MANAGEMENT, MONITORING AND SUPERVISION

#### **PRINCIPLES**

- **III.A** The members of governing bodies who possess non-executive management duties or monitoring and supervisory duties should, in an effective and judicious manner, carry out monitoring duties and incentivise executive management for the full accomplishment of the corporate purpose, and such performance should be complemented by committees for areas that are central to corporate governance.
- **III.B** The composition of the supervisory body and the non-executive directors should provide the company with a balanced and suitable diversity of skills, knowledge, and professional experience.
- **III.C.** The supervisory body should carry out a permanent oversight of the company's managing body, also in a preventive perspective, following the company's activity and, in particular, the decisions of fundamental importance.

### RECOMMENDATIONS

- **III. 1.** Without prejudice to the legal powers of the chair of the managing body, if he or she is not independent, the independent directors should appoint a coordinator (lead independent director), from amongst them, namely, to: (i) act, when necessary, as an interlocutor near the chair of the board of directors and other directors, (ii) make sure there are the necessary conditions and means to carry out their functions; and (iii) coordinate the independent directors in the assessment of the performance of the managing body, as established in recommendation V.1.1.
- III.2. The number of non-executive members in the managing body, as well as the number of members of the supervisory body and the number of the members of the committee for financial matters should be suitable for the size of the company and the complexity of the risks intrinsic to its activity, but sufficient to ensure, with efficiency, the duties which they have been attributed.
- III.3. In any case, the number of non-executive directors should be higher than the number of executive directors

PRINCIPLE/RECOMMENDATION	COMPLIANCE	REMISSION PART I
<b>III.4.</b> Each company should include a number of non-executive directors that corresponds to no less than one third, but always plural, who satisfy the legal requirements of independence. For the purposes of this recommendation, an independent person is one who is not associated with any specific group of interest of the company, nor under any circumstance likely to affect his/her impartiality of analysis or decision, namely due to:		
<ul><li>(i) Having carried out functions in any of the company's bodies for more than twelve years, either on a consecutive or non-consecutive basis;</li></ul>		
(ii) Having been a prior staff member of the company or of a company which is considered to be in a controlling or group relationship with the company in		
the last three years;  (iii) Having, in the last three years, provided services or established a significant business relationship with the company or a company which is considered to be in a controlling or group relationship, either directly or as a shareholder, director, manager or officer of the legal person;  (iv) Having been a beneficiary of remuneration paid by the company or by a company which is considered to be in a controlling or group relationship other than the remuneration resulting from the exercise of a director's duties;  (v) Having lived in a non-marital partnership or having been the spouse, relative or any first degree next of kin up to and including the third degree of collateral affinity of company directors or of natural persons who are direct or indirect holders of qualifying holdings;  (vi) Having been a qualified holder or representative of a shareholder of qualifying holding.	Yes	18
<b>III.5.</b> The provisions of (i) of recommendation III.4 does not inhibit the qualification of a new director as independent if, between the termination of his/her functions in any of the company's bodies and the new appointment, a period of three years has elapsed (cooling-off period).	Yes	18
<b>III.6.</b> Non-executive directors should participate in the definition, by the managing body, of the strategy, main policies, business structure and decisions that should be deemed strategic for the company due to their amount or risk, as well as in the assessment of the accomplishment of these actions.	Yes	21
<b>III.7.</b> The supervisory body should, within its legal and statutory competences, collaborate with the managing body in defining the strategy, main policies, business structure and decisions that should be deemed strategic for the company due to their amount or risk, as well as in the assessment of the accomplishment of these actions. and the risk policy defined by the managing body.

PRINCIPLE/RECOMMENDATION	COMPLIANCE	REMISSION PART I
<b>III.9.</b> Companies should create specialised internal committees that are adequate to their dimension and complexity, separately or cumulatively covering matters of corporate governance, remuneration, performance assessment, and appointments.	Not applicable	27
<b>III.10.</b> Risk management systems, internal control and internal audit systems should be structured in terms adequate to the dimension of the company and the complexity of the inherent risks of the company's activity.	Yes	21 50 to 55
<b>III.11.</b> The supervisory body and the committee for financial affairs should supervise the effectiveness of the systems of risk management, internal control and internal audit, and propose adjustments where they are deemed to be necessary.	Yes	21 51
<b>III.12.</b> The supervisory body should provide its view on the work plans and resources of the internal auditing service, including the control of compliance with the rules applied to the company (compliance services) and of internal audit, and should be the recipient of the reports prepared by these services, at least regarding matters related with approval of accounts, the identification and resolution of conflicts of interest, and the detection of potential irregularities.	Yes	21 51 55

### CHAPTER IV — EXECUTIVE MANAGEMENT

### PRINCIPLES

**IV.A** As way of increasing efficiency and the quality of the managing body's performance and the suitable flow of information in the board, the daily management of the company should be carried out by directors with qualifications, powers and experience suitable for the role. The executive board is responsible for the management of the company, pursuing the company's objectives and aiming to contribute towards the company's sustainable development.

**IV.B** In determining the number of executive directors, it should be taken into account, besides the costs and the desirable agility in the functioning of the executive board, the size of the company, the complexity of its activity, and its geographical spread.

PRINCIPLE/RECOMMENDATION	COMPLIANCE	REMISSION PART I

Within the company's budgetary limitations, the remuneration committee should be able to decide, freely, on the hiring, by the company, of necessary or convenient consulting services to carry out the committee's duties. The remuneration committee should ensure that the services are 69 Yes provided independently and that the respective providers do not provide other services to the company, or to others in controlling or group relationship, without the express authorisation of the committee.

#### V.3 DIRECTOR REMUNERATION

### PRINCIPLE

Directors should receive compensation:

- (i) that suitably remunerates the responsibility taken, the availability and the competences placed at the disposal of the company;
- (ii) that guarantees a performance aligned with the long-term interests of the shareholders, as well as others expressly defined by them; and
- (iii) that rewards performance.

PRINCIPLE/RECOMMENDATION	COMPLIANCE	REMISSION PART I

3.

Additional clarifications in the recommendations in which there was no adhesion, partial adherence or was considered not applicable

- I.2.1 The Company did not establish criteria and requirements for the profile of new members of corporate bodies, since past selection processes duly guarded such attributes as competence, independence, integrity, availability and experience. Gender equality, in the current mandate, had the legal framework of gender parity as a guiding rule, having been fully complied with by the corporate bodies, namely the Board of Directors and the Audit Committee.
- I.3.1 Through the Regulation of the Board of Directors and the Audit Committee, the company establishes mechanisms to comply with the recommendation.
- I.3.2 Through the Regulations of the Board of Directors and the Audit Committee, the company establishes mechanisms to comply with the recommendation.
- I.5.1 The combination of the Regulation on Business with Related Parties and the delegation of powers by the Board of Directors to the Executive Committee results that:

i. it is reserved to the competence of the Board of Directors, not delegated to the Executive Committee, to approve contracts for the acquisition of goods or services with a value superior to € 500,000, as well as the signing of new financing contracts for more than one year and one day;

ii. contracts celebrated with related entities that by their nature exceed (i)  $\in$  750,000 in the case of purchases and sales of goods and services, (ii)  $\in$  5,000,000 in the case of financial investments and investments, iii) and 10,000,000 in the case of loans and other financing, excluding mere renewals, (iv)  $\in$  500,000 in the case of other transactions as well as (v) transactions that, exceptionally, are not carried out under normal market conditions and (vi) that due to their nature, amount or conditions of realization, may be particularly relevant in terms of transparency and / or conflict of interests, need a prior opinion from the Audit Committee; all other acts executed with related entities are notified to the Audit Committee until the end of the month following the one in which they were carried out.

II.3 - Shareholders can exercise the right to vote by correspondence by sending a ballot paper that is available on the website or sent to them by email. It is defined in the notice that the Bulletin should be sent by registered mail to the Company's headquarters.

II.4 - The company considered to be in the best interest of its shareholders not implement a method of participation or voting by telematic means, since, besides having so far not received any expression of interest from shareholders or potential investors to participate in their meetings using telematic voting, i) in past general meetings there was always a small number of participants and ii) the implementation of a system that would allow the exercise of voting by telematic means in a safe way would bring to society high costs.

III.7 - The Company does not have a General and Supervisory Board.

III.8 - All members of the Audit Committee, for being part of the Board of Directors, have immediate and direct access to discussions prior to the approval of plans.

III.9 - Due to the small size of the company, evaluated in the provisions of paragraph 2 of Article 413 CSC (the Portuguese Companies Code), and the functions performed by the Audit Committee, the company considers that the constitution of specialized commissions is not justified.

IV.1 - There is no internal regulation that defines the performance of executives members or executive functions outside the group, however the Code of Conduct provides that all external professional activities, whether paid or not, must be communicated and cannot arise to any conflict of interest with Inapa.

IV.3 - The Board of Directors and the Audit Committee make an annual assessment of the adequacy of the risk mitigation measures present in the Company, defining together a work program that monitors the maintenance of the adequacy of the measures in progress and allows adjustments to be made whenever justified.

V.2.4 - The remuneration policy does not provide for any type of pension scheme for directors and no provisions are set for any indemnification or compensation other than that legally due. INAPA has no agreements in force with members of its governing bodies and / or managers that provide for compensation in the event of dismissal, unjustified dismissal or termination of the employment relationship following a change of control of the Company.

V.3.4 - The remuneration scheme does not contemplate the allocation of options or other instruments directly or indirectly dependent on the value of the shares.

V.3.6 - There are no mechanisms for indemnification or compensation beyond what is legally required. INAPA does not have agreements in force with members of its governing bodies and / or managers that provide for compensation in case of dismissal with just cause, dismissal without just cause or termination of employment following a change of control of the Company. The remuneration policy, in section V, establishes the situations in which executive directors may or may not be entitled to variable remuneration for the current year when the termination occurs. As there are no agreements and mechanisms for variable remuneration the Company understands that the provisions of the law are part of good governance practices in the event of termination before the expiration of the mandate.

V.4.1 - The proposal for the election of the members of the governing bodies submitted for approval by the General Assembly shall be accompanied by a description of the academic qualifications and professional experience of each member. The description is not accompanied by a justification for each profile. The Company does not have its own regulations requiring the definition of profiles since there has always been a compatibility of profile proposed to the functions to be performed in each profile of the Board of Directors.

V.4.2 - In view of the size of the company, measured in the light of the requirements of Article 413 of the CSC (the Portuguese Companies Code) no. 2, and the limited number of members of the Board of Directors (seven), the constitution of the nomination committee is not justified.

V.4.3 - The company does not have a nomination committee.

V.4.4 - The company does not have a nomination committee.

VI.1 - The Board of Directors makes an annual assessment of the adequacy of the risk mitigation measures present in the Company, defining together a work program that monitors the maintenance of the adequacy of the measures in progress and allows adjustments to be made whenever necessary.

VII.2.1 - Although the internal regulations do not provide

the definition of criteria for the selection and evaluation of the statutory auditor, a contract is prepared for each term of office in which all the criteria contemplated in this recommendation are defined. The respective specifications are subject to review and approval by the Audit Committee, and the Board of Directors opinion.

VII.2.4 and VII.2.5 - In view of the content of paragraph 8 of the Interpretative Note and the fact that it does not seem viable to monitor, accurately, the competencies that belong to the statutory auditor and not to society, we understand that the recommendations VII.2.4 and VII.2.5 must be considered, in their entirety, as not applicable.
